

Friendship Day 2018

Relatives are God given
Friends are self chosen
Who are most valuable
And are more capable
In our life situations
Help in finding solutions.

Friends are there everyday
In our minds and hearts
On a good day or bad day
Always a call away
Ready with their hands
Along with you to play or pray.

To us friends are everything
No issues to share anything
Even things very personal
With them all is informal
Not to worry they are caring
A relationship that's lasting.

We need to nurture friendships
For the lasting relationships
Building on with trust
With efforts that are best
Who are there always
Truly they are our friends.

Wishing all my friends a Very Happy Friendship Day
