

# Happy 2005

Hello,

The difference between a calm sea  
And the tsunami waves in the sea  
Is just few shocking seconds  
Which turned life into death for thousands.

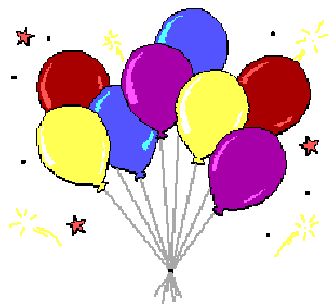

Waves come and waves go  
And it's a beauty to watch them  
Wondering what lies beneath  
The vastness of the oceans.

Years come and years go  
Taking us thru' the ups and downs of life  
We all know what we went through  
But not a slight idea of what will hit us - when and where?

Tsunami's are disastrous and deadly  
When they come as wall of sea waves;  
But if they happen to be the waves of Happiness and Prosperity  
They are welcome and it's what we wish you all.

Wishing You and Your Family a Very Happy and Prosperous New Year 2005
