

## Leap 2024

*The wars are raging in many places  
Ignited by the powerful rogue forces  
For the hunger of monopolistic powers  
Only to Leap and rule the world, all by themselves.*

*The pandemics of diseases are increasing  
Spread after creating them thru artificial grooming  
So that the healthy population of others is shrinking  
Only to Leap and control the world from growing.*

*The terrorist attacks are on the rise  
Openly the states are supporting this tide  
Making countries to suffer and pay the price  
Only to Leap and starve the world of peace.*

*New technologies are seeing the light every day  
Making tools that are dangerous and deadly  
In a race to be the sole power and destroy  
Only to Leap and win wars seeing everyone as enemy.*

*Groups being formed with hidden agendas  
Only to suppress others from raising their heads  
With biased sound bites and nonsensical fake news  
Only to Leap and weaken the pride of the countries.*

*Corruption is no longer an activity under the table  
Being done openly to loot, with an attitude, I don't care  
Forcibly making all to pay, as no one has the guts to dare  
Only to Leap and accumulate as much of their share.*

*Do we continue to be the silent spectators  
To see the suffering of people in millions  
Just because it has not affected most of us  
We can take the Leap and promote positiveness.*

*There is always, something we can do, our bit  
Stop all the negativity that's spread through a tool-kit  
In the circle of our influence, our closely knit  
We can take the Leap and spread the light.*

*We don't have to put the ocean on the boil  
Shatter the earth and dig out all the soil  
Or climb the ladder to the sky and toil  
We can take the Leap and prevent the turmoil.*

*In 2024, the coming, once in a while, Leap Year  
Let's take the Leap, shedding the fear  
And make an impact to the world in our sphere  
Yes, small are big, we can take the Leap and brighten our future.*

*Wishing You and Your Family A Very Happy, Peaceful & Courageous Leap Year 2024, Girish Elchuri*
