Luxury

You have a roof on your head
Protecting all of your family
Whether it is hot or cold
A house that gives you safety;
That's Luxury.

Whether you are hungry or not
Nutritious food is available
That's hygienic and piping hot
Ready to eat on your table;
That's Luxury.

Essential clothes in the wardrobe
And associated required accessories
That keeps you comfortable
And caters to all necessary occasions.
That's Luxury.

Clean water for all your needs
Turn on the tap and it's flowing
Electricity for a bright living
Which is powering all your gadgets;
That's Luxury.

You can buy all the required pills
Taking the preventive measures
To always keep yourself healthy
Any medical issue for a fast recovery.
That's Luxury.

You can pursue whatever you want to be
Study and achieve the dream degree
From whichever is a good university
Having career options with full clarity.
That's Luxury.

Taken for granted we enjoy these
Treating them as mere necessities
For billions, are out of reach luxuries
Still we are craving for much more.

Luxury is not of expensive possessions
But about not needing to struggle
With a peace of mind for a smooth life
And focus on achieving personal goals.

Luxury is not what we think
To the God, let's thank
Having the ability to live
A happy and fulfilling life.
