

Royal Rajasthan

Rajasthan stands for royalty
True and proven bravery
The forts and palaces tell the story
Their centuries of history.

Every structure is so majestic
Massive in size and also artistic
Every detail is a beauty and intrinsic
With a style that's very unique.

Jaipur is the Pink City
Jaisalmer is the Golden City
Jodhpur is the Blue City
Udaipur is the Lake City

Every city has something different
But their values remain the same
All the rulers being eminent
Always fought protecting from outside shame.

Being the border regions
They were under attack always
From the outside reigns
And the inside foul plays.

They always stood by their values
Practised uncompromised integrity
Never bowing down before the enemies
Whatever was the situation's intensity.

Centuries old structures standing tall
Never losing their beauty or glory
It's a pleasure to visit them all
To capture them in our hearts and memory.

There is a flair in every fort
Palaces being a visual treat
The lakes are clean and vast
Even their graves are structures of art.

Of what you see, the praise can never end
It's very educative to learn about the royal families
How they won the battles and struggled
And survived with long term vision and strategies.

Inspired by our visit to Rajasthan
