

Teacher's Day 2020

T
Think

*Teacher teaches us the art of thinking
Through observation and questioning
Inspires us, everyday, to learn something
Putting the concepts in front us by explaining.*

E
Experiment

*Experiments are to visualize the topics
Teacher brings, in front of us, such experiences
Struggling to teach, with whatever available resources
With a single goal, to make us all educated individuals.*

A
Apply

*Theory is useful only if we can apply
Teacher gives us that path to practicality
Making us solve innumerable problems
Again and again, till we become experts.*

C
Coach

*Teacher is a coach for our life
Teaching many nuances that we need to learn and get
Focusing to teach on what we can become
Not just lessons, but much more, for us to become perfect.*

H
Humility

*One thing we can learn from teachers is humility
Though they make many as great, they remain simple
Rooted to their profession and dedicated to their duty
And forever they remain to be humble.*

E
Everlasting

*The imprints of the teacher on us are everlasting
The teachings are the basis for strong foundations
Helping us build our growth for a successful living
And the teacher reminds us all that learning never ends.*

R
Respect

*Right from schooling, continuing even in our careers
We learn from teachers, colleagues, friends, family members
Climbing the ladder of the knowledge into higher levels
With due respect, bow to all the teachers.*

*Gurur Brahma Gurur Vishnu, Gurur Devo Maheshwaraha
Guru Saakshaat Para Brahma, Tasmai Sri Gurave Namha*
