

Thank You Dhoni

Dhoni, the captain cool
When he is on the field
Nobody can behave like a fool
As he is a thinking player and bold.

He has the knack to think differently
When the situations are not favourable
Not to panic but act intelligently
Showing, from a down position wins are possible.

His focus is always the success of and in cricket
For that, if required, he will be ruthless
From forming the team with only capable players
To demolishing the competitors at the wicket.

On the field he is a controlled aggressor and brisk
Playing strategically to the situation
Rotating the bowlers and fielders, taking the risk
Putting on the spot, the clueless opposition.

His no nonsense approach is well respected
Nobody dares sledge him on the field
He will not react to such tactics, with unemotional looks
Replies with astonishing hits and smart work behind wickets.

He took the Indian cricket one level up
Building on the good work of the previous legends
Encouraging talented players without any bias
Taking the Indian cricket in the world to the top.

He started from a simple beginnings
Still very humble, after years of successful innings
Very loyal, remembers and interacts with his old friends
Who stood by and supported him in his early struggles.

He is loved and respected by the fans
For his brilliant approach to the game
The roaring is louder when he hits helicopter shots
More so, when he wins and brings to the country, the fame.

It's heartbreak for fans when he hangs up the boots
As he is such a successful player and captain
For him country comes first before his personal goals
Very rare to find such a selfless and successful person.

For some years his cricketing entertainment will continue in IPL
We hope he will return to Indian cricket in another capacity
To proudly script another era of a successful fable
Taking cricket in India to another level of success and capability.

Wishing Him A Successful Life Forever
A **loving** fan
Girish Elchuri, Bengaluru
