

Thank You Roger Federer

Roger Federer, the tennis legend
Famous for his fluid style of play
Known for his shots and speed
With many tricks in his armory.

It's a pure joy watching him on the court
However tough is the competitor
As he entertains with powerful smashes
One by one breaking the records.

Statistically, he brought many laurels to himself
Every win of his being a great story
Adding cups and shields to his shelf
The numbers talk about all his glory.

A thorough and cool professional
As a junior lacked self control
Transformed and liked for his graciousness
Making his game appear effortless.

In his era he was part of the big three
Sharing the spoils for years together
But made a name for himself, that's unique
In a long history of his tennis career.

Liked even for his off-court simplicity
And the very helpful philanthropy
Being a helping hand to many
Bringing many recognitions to his way.

Sad to see him hang the racquet
As he announces his retirement
After 24 years of tennis tournaments
Filled for himself and fans enjoyable moments.

Wishing him all the happiness
With his family and growing kids
As he will be remembered always
By his fans, with him in their hearts.

Thank You Roger Federer
For all that you have given to the game of tennis
The top class game you displayed to us, all the fans
That we will cherish forever.

Your Fan and Wellwisher
