

What Logic is This ?

In the good old land of the Logic
Where "tarka" was widely practiced
Knowledgeable gurus intensely competed
That tradition is long lost, so tragic.

It starts in the schools
Where questioning is killed
And application of knowledge is unheard
The system's focus is only to score good marks.
What Logic is This ?

And it continues at homes
On any topic, no conversations
Not ready for the challenging questions
Younger cannot question the elders.
What Logic is This ?

Social media is full of fake news
We are ready to believe and forward
Always looking for the likes
Getting disconnected from the real world.
What Logic is This ?

Advertisements are twisted facts and fabricated lies
Celebrities will say anything for money
We believe them like a bunch of fools
And buy what they promote, blindly.
What Logic is This ?

Politics is about false propaganda and fake promises
Woo the voters with economically unsustainable schemes
We vote with deep biases and fanatical loyalty
Or we don't vote at all due to no sense of responsibility.
What Logic is This ?

Businesses push for maximum sales
With attractively looking promotions
Apparently offering once-in-a-lifetime discounts
We jump to buy even when there are no needs.
What Logic is This ?

We are leading the lives as we are pushed
Following the trend without thinking
As we are constantly brainwashed
To be a puppet for somebody's social engineering.
What Logic is This ?

What's logical is to wake-up and control our lives
Using the wonderful, God given brain to lead ourselves
Towards a life that we dream, decide and achieve
Logically questioning when pushed into a wrong move.
