

WISHING 2010

*As the New Year begins
Let's get everything new
Our dreams, hopes and prayers
Let's wear a new attitude and bring smiles.*

*New dreams - to conquer greater heights
In your life, work and society
Bringing happiness and prosperity
To all you know and don't.*

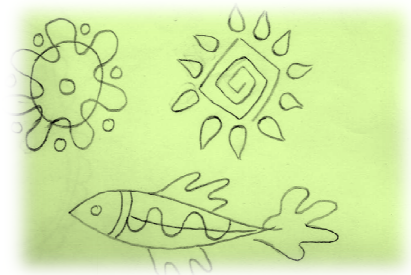

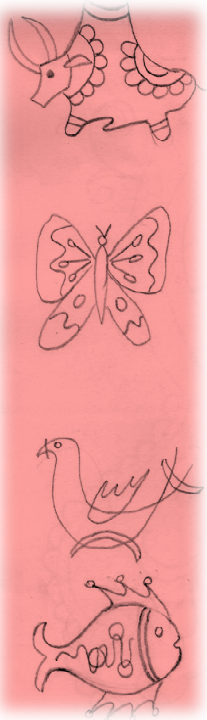

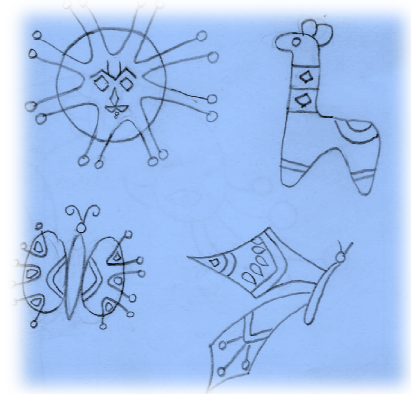

*New hopes - for a better world
A world, that is peaceful and safe
Not only for our near and dear
Also for the far and met never.*

*New prayers - for universal good
For the well being of your family,
Friends, relatives, colleagues
And all your countrymen.*

*New attitude - towards ourselves
Towards those we don't see, may not even know
Those, in the animal kingdom, who can't speak
And those which can't even move, the plants and trees.*

*Bring in smiles - every moment
To everyone you see, speak and interact
Touching their hearts
To get back a smile...*

*As the new decade rolls-in
Bring in new dreams, hopes and prayers
With a new attitude and smile
Make our world and planet Earth livable.*

**Wishing that the New Year & New Decade Continue to Bring
Happiness for One and All**
